Free Cyber Security Videos

Sent: 26 March 2020

We want to bring to your attention a series of free videos that have been made by our colleagues in the Cyber Griffin Unit at the City of London Police.

These videos have been made to specifically look at some of the cybersecurity risks associated with working from home.

The videos are 2-4 minutes long and cover the following topics:

- Phishing
- Vishing
- Multi-Factor Authentication
- Passwords
- Software updates
- Social engineering
- Securing your router

The videos are all available on YouTube and can be found by copying and pasting the following link into your browser:

<https://www.youtube.com/playlist?list=PLoWZUquVJo4SLWKD5A96znBNi23UzOjiG>

or by searching for “City of London Police” on YouTube.

These videos are very impactful and easy to follow and I would encourage you to share them with the staff in your organisation.

*This alert was sent out for your information by Police Scotland Safer Communities
